

Special mixing-pump type BAPRO one INIEKCJE (400Volt)

standard equipment:

- special stator and rotor type BAPRO SILA W
- main gear-motor NORD 5,5 kW 416 rpm special edition BAP01
- tilt sensor of main engine (safety)
- infeed wheel gear-motor 0,55 kW 22 rpm special edition BAP02
- material hose 25 mm 40 BAR, 15 meter, with hydraulically fitted couplings male and female rotating
- water hose 1/2", 5 meter with spraying nozzle
- cleaning tool and cleaning shaft for cleaning mixing chamber
- water fittings with valve to regulation of water 150 - 1500 l/h
- mixing shaft
- water pump type 50M
- mortar pressure gauge 25 mm
- power cable 400V 5x4 mm², 25 meter
- water hose 3/4" 20 BAR included geka-coupling 25 meter
